

Grapple saw wood energy for excavators end telescopic forklift

Needs only 2 pipes link

Equipments standard

- Kit cassette saw with hydraulic piston motor
- Chain lubrication automatic
- Slew drives rotation grapple
- Remote control
- Rotation slew/drives 300°

Optional

- Electric battery for machinery without electric link
- Hydraulic sistem for 360° rotation

Tecnical data

	Model TP120 RF- RALLA	Model TP 135 RF-RALLA
Open grapple (cm)	120	135
Weight (Kg)	420	450
Flow (LT/M.)	50	80
Cutting diameter (cm)	45	55
Pressure max of working (bar)	250	250
Pressure minimum of works (bar)	220	220
